MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. Brzezinski,  
8 February 1979 (U)

6. I discussed the HPSCI request for the NITs. He is quite opposed NIO/SS to our doing this. We should take a position that these are Presidential guidance documents within the Executive Branch, but we should offer to C/USNS brief them orally on the general priorities perhaps in somewhat broader Support form than in the NITs themselves. (S)

STANSFIELD TURNER  
Director

OLC 79-645

15 February 1979

MEMORANDUM FOR: Director of Central Intelligence  
Deputy Director of Central Intelligence

FROM: Legislative Counsel

SUBJECT: Request for Briefing on Iran

The Subcommittee on Defense, House Appropriations Committee, has requested that the Director be prepared to address separately the question of Iran in conjunction with his worldwide briefing of the Committee on 27 and 28 February. This request emanates from a meeting between Subcommittee Chairman Addabbo and Ranking Minority Member Edwards, who felt the need for such a separate statement [REDACTED]

25X1  
25X1

The separate statement should address the following subjects:

1. Did the U.S. suffer an intelligence failure in Iran?  
If so, what actions does the DCI recommend to prevent a recurrence?
2. Was the failure one of collection or analysis?
3. What NFIP budgetary conclusions can be drawn from the Iran situation, i.e., does NFAC require more analytical and production slots than were requested in the FY 80 NFIP budget?

25X1

As I understand the Committee's wishes, the DCI would proceed with his normal worldwide briefing, giving a SITREP on Iran, but at some time during the two-day period would address the subject of Iran separately and specifically in accordance with the above Committee concerns. The Committee has requested that we supply a separate written statement on Iran.
